The Book

About Collection Brand

With over 28 years of experience in the Iranian tile and ceramic industry, Collection Tile is a brand built on core values of responsibility, respect for customers, flexibility, and providing high-quality products. We pride ourselves on using the latest and most beautiful Italian designs, inspired by the unique patterns of natural stones.

At Collection, we offer a wide range of products to ensure that our customers can make the best choice with peace of mind. Our brand continually expands its market presence through new stores and a network of representatives in major cities, providing architects, project managers, construction companies, and consumers with quick and easy access to our products.

We are passionate about creating a good feeling in your home or workplace, because we believe that you deserve the best.

COLLECTION

Usage of Large Ceramic Slabs

These extra-large porcelain slabs, available in various finishes, are designed and produced for a wide range of applications. Their advanced technology ensures that all the technical specifications required for both indoor and outdoor use are met.

These exceptional ceramics represent the latest in building materials, ideal for covering walls in sanitary spaces, flooring in residential, commercial, and office environments, building facades, countertops, accessories and furniture. They are also perfect for creating innovative and decorative designs for accent walls, such as TV walls or the main walls in executive rooms.

Right Choice

To fully harness the technical and aesthetic benefits of ceramic slabs, it's important to consider their intended use, size, surface finishing, texture, and color. With the right and thoughtful selection, you can significantly enhance the good feeling of your space.
