

MICO

ABOUT

Established for over thirty years, Mico Group has garnered a distinguished reputation for its exquisite porcelain slabs and tiles. Drawing inspiration from a rich heritage of Italian design and employing cutting-edge technological advancements, Mico has positioned itself as a preeminent partner for architects and designers seeking to elevate their projects with unparalleled sophistication.

We envision ceramics not merely as a building material, but as a transformative medium for crafting luxurious and inspiring spaces.

The cornerstone of Mico's success lies in its unwavering commitment to three core principles: uncompromising quality through meticulously sourced materials and state-of-the-art Italian production methods, enduring elegance achieved via longstanding collaborations with esteemed Italian design partners, and a global vision reflected in exports to a discerning clientele around the world, with a notable presence in international markets.

Mico Group

Inspiring Architectural Vision

A modern living room interior. The background wall is made of large, dark grey stone tiles with prominent vertical veins. A long, low wooden console runs along the base of the wall. On the left side of the console, a small fire burns in a recessed area. To the right, a small, round, gold-colored lamp sits on the console. A large, flat-screen television is mounted on the wall above the console. In the foreground, a large, square, beige ottoman with a dark brown base sits on a light-colored wooden floor. The floor is made of wide, light-colored wooden planks. The overall atmosphere is minimalist and sophisticated.
