LUXURY COLLECTION

The Luxury collection of exclusive bathroom compositions takes its main inspiration from the '20s: an Art Decò flair pervades, creating a unique yet familiar style.

Evoking the essence of fashion icons like Elsa Schiaparelli, the materials of the Luxury collection partner each other to create a unique ambience. Bold colours with strong personalities, handcrafted details, unique finishes such as “diamond shape” lacquers, combined with gold and marble for luxury “salle de bains”: much more than simple bathrooms.

Oasis offers a complete range of bathroom components, from vanity units to bathtub and storage units, as well as beautifully coordinated armchairs. The details, as usual, are extremely refined and intricate, for a chic, sophisticated interior scenography.

ACADEMY

Lacquerings, gold and marble finishing for Academy, the new Luxury Bathroom collection, suitable for the most elegant locations.

Once again the italian finest tradition, with its ribbed or diamond-like decorated lacquering, the glasses and the marbles, furnished the most exclusive “salle de bain”, creating spaces to contemplate, relax, and take care of yourself and allowing a sophisticated and comforting atmosphere.

The designed pieces dialogue with accessories and complements: elegant pouf and benches, bronzed and smoked wall mirrors, lightings, tall units and towel holder cases, with matching finishings and colors, will please the even most demanding interior designers.

LUTETIA

Lutetia is the name given by the ancient Romans to Paris, absolute capital of the Art Déco, style to which the new model is inspired. The most obvious references to Art Déco are exhibited in the details of the handles, the tip of the foot, and in the square lines of the furniture. The mirrors and the lamps, combined with the console on which it rests the sink, are designed to evoke a typical Twenties atmosphere.

ELISS'

Essential, but sumptuous and elegant thanks to its delicate workmanship, the basin column Plissé draws its inspiration from the dense folding that allows to give body to the fabrics, at the same time leaving them free to flutter, underlining their movement. So is the basin column Plissé, with its important shape resembling a classical sculpture, lightened by the folding like an accordion, which creates an ideal movement, like temples of Greek architecture.

Just like an ancient peplum, the basin column Plissé, made of opaque white ceramic, has a ring decorating in gold or chrome metal, almost to underline the "waist", as in a high fashion dress. Oasis, the Italian company with the widest offer of contemporary luxury bathroom furnishing, is always attentive to the evolution of style, and Plissé confirms this. Thanks to its simple and precious elegance, Plissé fits perfectly in luxurious ambients, characterized by rigorous projects, with a particular attention to the details of interior architecture.
